Kerman Bharucha, United States, 2017. Paperback. Condition: New. Language: English. Brand new Book. "Education from Infancy: All 4 Parts" describes my very successful efforts at teaching Math and literacy to my grandson from the earliest days of his infancy, and is geared towards: - new parents, grandparents or other caretakers who want to give their infant child a huge jump-start on his or her education; - the parents of the pre-K child that needs a helping hand with math; - the young student in elementary or middle school, who has reading skills but has difficulty with basic math; - anyone who needs a quick review of basic math. By his age of 6-7 months, I had taught my grandson to recognize and point out to me: - upper-case letters of the alphabet; - the basic numbers 0 through 9 in normal and upside-down perspectives from his point-of-view. By his age of 5 years, I had taught my grandson to: - verbalize and write out numbers up to 36 digits long; - perform the basic math functions of addition, subtraction, multiplication, division; - perform math with fractions; - several other interesting math topics. This book details the techniques I used to achieve these early milestones. This book will serve your child well through several years of his/her school life. "Education from Infancy: All 4 Parts" is an integrated volume that provides a comprehensive introduction to basic Math and science that every child needs to know. Starting with fundamental ideas, the book covers various concepts in arithmetic, algebra, geometry, coordinate geometry and general science. All these topics are laid out in a logical progression in the table of contents of the various volumes. Start with a topic that is appropriate to your child's age and ability. This book will get your child...
